General Manager

Time to Address the Climate Change

with Innovative Projects tackling **4 Thematic Pillars**

Carbon Free Energy Supply

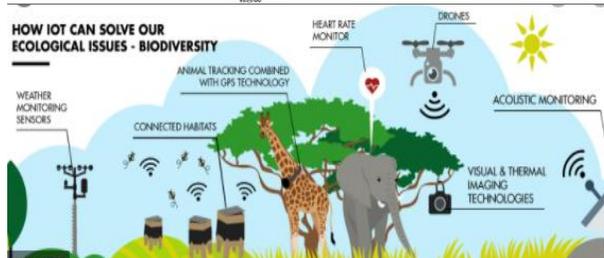

Greener & Smarter Mobility

Smarter Housings & Constructions

Bio Resources and environment

Possible Application areas

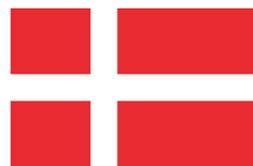

- Offshore Wind turbines, bioenergy, solar panels, fuel cells power to-X, energy storage
- Hydrogen Fuel cell (production, storage, station)
- CO₂ Capture, Sequestration and Utilization
- Green and Zero-emission Buildings, Smart cities, heating
- IT solutions in buildings, smart monitoring, 3D construction, digital twins in housing design
- AI, IoT, Bigdata, 5G/6G integrated solutions in cities
- Smart Grids, Micro-Grid, E-mobility
- Monitoring of the environment and bio resources
- Drone and satellite monitoring systems of land, rivers, sea Industrial robots, sensors, edge cloud computing, Raman Mass spectrometry, AI, big data
- ... and many more.

Participating Countries

The Call is supported by 10 Eureka countries:

- *Austria*
- *Belgium (Flanders)*
- *Denmark*
- *Hungary*
- *Luxembourg*
- *Portugal*
- *South Africa*
- *South Korea*
- *Spain*
- *Turkey*

Submitting a Project

A New Single Call Web page

- Project submissions will be based on a single step process accessed through the EUREKA Eurogia Green Transition Call website:
<https://eureka-eurogia-green.eu/>
- Call guidance is available on the website
- Call submission support will be provided by the Eurogia cluster
- It is essential for each partner to contact their supporting Public Authority at the earliest opportunity to verify eligibility
- Funding rates/Rules of participation are subject to National policy

EUROGIA THEMATIC GREEN TRANSITION CALL
A CALL FOR INNOVATIVE PROJECTS TO DELIVER TECHNOLOGY DRIVEN GREEN TRANSITION AND SUSTAINABLE ENVIRONMENTAL SOLUTIONS FOR EUROPEAN INDUSTRIES.

The EUREKA Cluster Eurogia, together with EUREKA Public Authorities of the participating countries have perceived a common cross domain interest for Technology-driven green transition projects addressing issues such as Energy preservation, Sustainable manufacturing, Bioresources and Biodiversity.

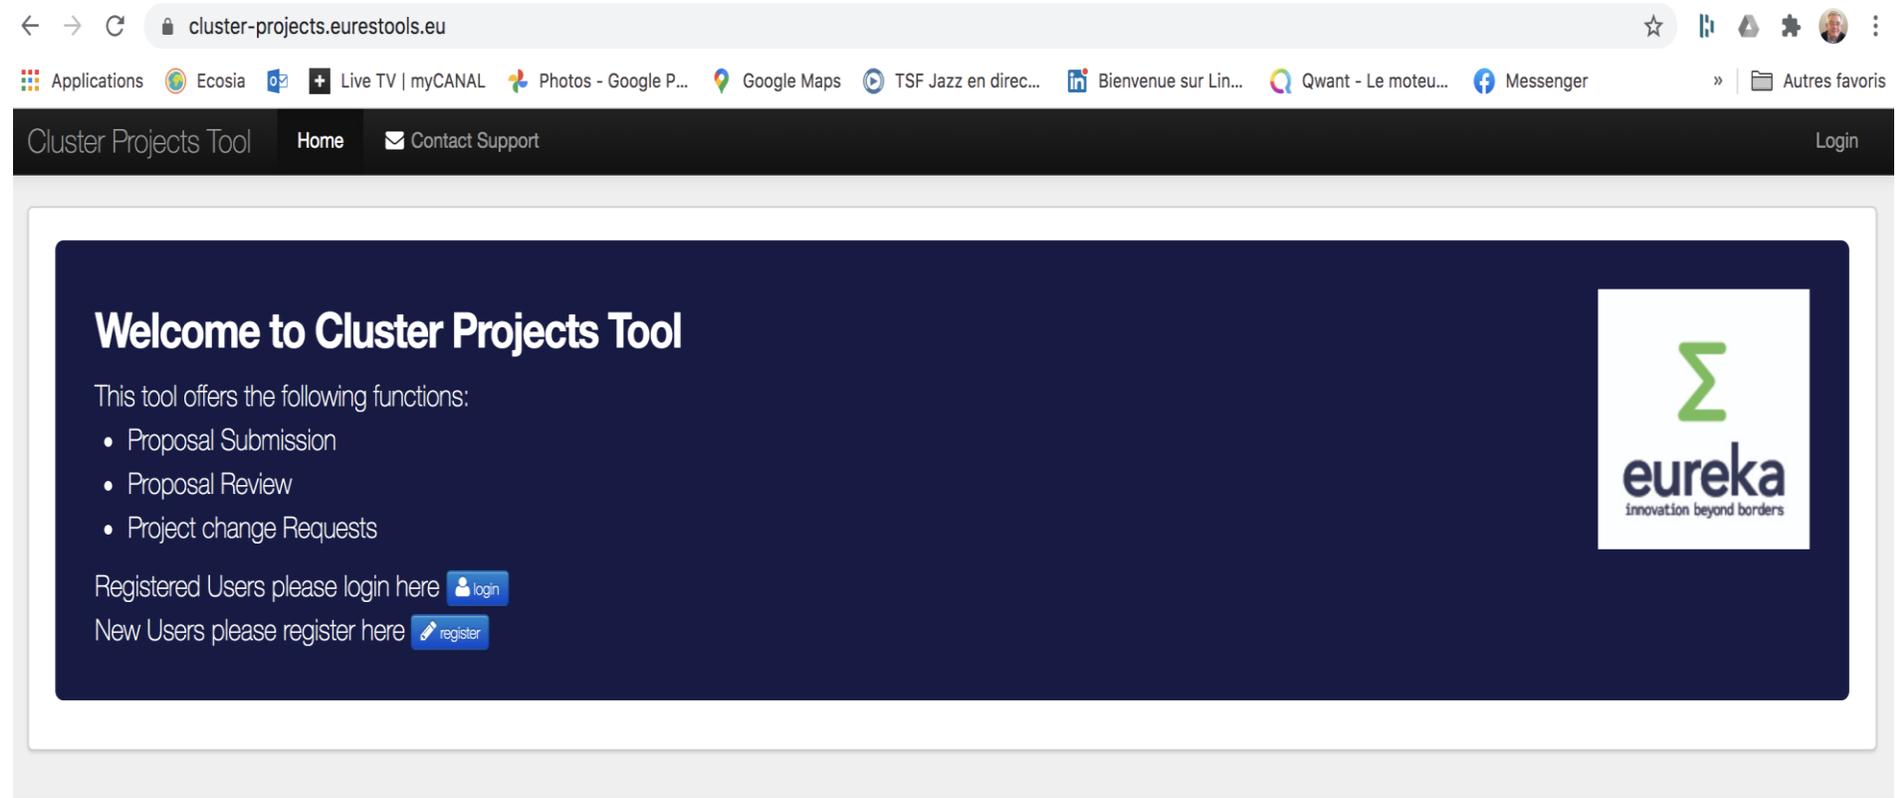

The aim of this Call is to boost the productivity, competitiveness and environmental sensitivity of European industries through using innovative technologies to dramatically reduce their environmental footprint.

Submit your project proposal

Login to the Tool:

<https://cluster-projects.eurestools.eu/>

1. Fill in the web forms in the Tool
2. Download the proposal templates in the GT Call Website
3. Upload your proposal in the Tool

Submission Deadline: June 15th, 2021 17:00 CET

A successful Project....

Creating Maximum Impact

- ...should primarily target taking Green Transition technologies beyond the State-of-the-Art
- ...can propose innovations that will enable Green Transition applications
- ...will form innovative ecosystems, with Green Transition at their core, that will result in high impact opportunities for commercial and/or societal impact
- ...will bring together partners in the field of Green transition solutions and enabling technologies
- ...will be a “Mid-size” project with eligible costs in the range of €2-10m, (though projects outside this range may also be submitted), with a typical project duration of 2-3 years
- ...will have held in-depth meetings with the Public Authorities in the countries from which they wish to gain support.

Call Processing & Support
